

Dr. István BAgI

Talajterkép Kft., Hungary

István Bagi has been working and researching truffles for 30 years. He has published numerous works on the ecological requirements of truffles.

In 2007, he wrote his book "The Craft of Truffle Hunting" on a similar topic. Currently, he is involved in the economic utilization and trade of truffles as Head of Truffle Department at NEFAG Zrt.

He also assists truffle growers in establishing truffle forests, using GIS analysis and field-level soil mapping.
